Expresses Much Gratification Over the United States' Determination.

EVIDENCE OF GOOD WILL

Wu Ting Fang Is Sure the Chinese Government Will Appreciate America's Course-Has No Advice as to What Is to Be Done In Regard to the Claim of Italy.

Washington, March 8 .- The Chinese minister, Wu Ting Fang, expressed himself as highly gratified at the definite determination of the United States to keep hands off of China and to resist the intimations of other powers that the time is ripe for this country to take for itself a part of the coast line of China, as made known by an authorized statement given out Monday.

"I am sure the Chinese government and people will not fail to observe this strong evidence of good will," said Mr. bond between the two countries, but it has a special significance just now. While the old world powers seem moved by rapacity the United States takes that position of equity, justice and humanity | the chiefs of bureaus at the navy dewhich has characterized her dealings with other international questions of rear admiral instead of commodore, as late, and, instead of joining in encroachments on China, assumes an attitude of strict neutrality."

The minister had a long conference with Secretary Hay as to the situation in China. While he will not discuss the conference, he undoubtedly learned in an official way, what was made known to the public later in the day and communicated the information to Pekin. It is expected that the position of the United States in refusing to seize any territory will have an important influence on affairs in China, strenghening the hands of those in authority.

Speaking of Italy's action in seeking an "open door" on the Chinese coast by the acquisition of San Mun bay, Mr. Wu says he was much surprised at this move, as Italy has practically no trade with China. He said that he never has seen more than two or three Italians in China; there are no Italian commercial houses that he recalls and no Italian

Under such circumstances the minister is inclined to believe Italy would not have acted until some of the other powers had been sounded. What China oting or rejecting the ill do as to acc Italian claims, Mr. Wu has not been advised officially.

INTERESTING REPORT.

American Manufacturers Invading the Cotton Market of Ecuador.

Washington, March 8 .- Consul General De Leon, from Guayaquil, Ecuador. submits to the state department a report of interest to the cotton manufacturers of the United States. He says that American manufacturers are gradually invading the cotton market of Ecuador, hitherto held exclusively by Europe, and that they are awakening to the fact that to do business with South America they have to furnish what the native customers want to buy and not what the American manufacturers think they

In furthering this understanding the consul submits a long list of cotton staples in demand in Ecuador with their local market names, the English equivalents, lengths and widths of pieces and prices in English and United States money. There is a farther table of freight rates from Europe, but the writer says he is not sanguine of full American control of this market till the completion of the isthmian canal.

forcefully and easily.

"For the last three years," says Mr. J. C. Morgan, of Monongah, Marion Co., W. Va., in a letter to Dr. Pierce, "I have been a constant sufferer from indigestion complicated with complaints that generally accompany such cases. Always after eating there would be a formation of gas and a heavy load in my stomach. I would belch up my food after eating; bowels were very irregular; I would imagine I saw objects floating before my eyes. I had pain across my back. About December, 1806, I began feeling much worse than usual and was beginning to think I would have to suffer the remainder of my life. I was greatly discouraged. I described my case to Dr. Pierce's staff of physicians and they directed me to begin at once taking the 'Golden Medical Discovery' according to directions. I did so, and am happy to state I experienced most gratifying results, as all the impleasant feelings have entirely left me. I have now a very good appetite, relish my food, and am pleased to say I feel once more like my former self. I recently walked e distance of one hundred and ten miles in about four days."

No remedy relieves constipation so quickly and effectively as Dr. Pierce's Pleasant Pellets.

the three big battleships authorized by the naval appropriation bill just passed are being worked out. The general features of the ships have been defined, subject to the approval of the secretary. The battleships will be 1,000 tons larger than the Maine and Missouri class, of a total displacement of 13,500 tons, making them by far the largest ships in the American navy and about equal in dimensious to the best type of battleships now being constructed abroad under the

previous years have caused a great deal more water than the figures above given, but the cold weather is to be reckoned with and may hold back the flood. The Ohio is out of its banks from Cincinnati to Paducah and is steadily rising, and so are the Wabash. Cumberland and Tennessee. The river here will remain nearly stationary for a day or two until the big rise reported at Cincinnati reaches here. The indications for warm weater with rain will be sure to give some more water and much damage is anticipated.

Railroad Men to Fight. Lexington, Ky., March 8.—Railroad men from all over the state will meet in Louisville March 19 to prepare plans to fight any candidate for governor who is in favor of the McChord railroad bill. This really means to fight Senator William Goebel, who has declared himself in favor of the bill. Meetings of the state central and state executive committees are being held in this city today which will have most important bearing on the race for governor.

Violent Gas Explosion. Milwaukee, March 8.-A gas explosion last night in the office of Baumann Bros., commission merchants in the Mitchell building, was so violent as to shake the big structure to its foundation. Instruments of the weather bureau, which is located in the building, were rendered temporarily useless. Charles Baumann was seriously injured. The explosion was caused by Mr. Baumann striking a match to light the gas which had been escaping.

Street Railway Bill Signed.

Springfield, Ills., March 8.—Governor Tanner signed the Alling street railway bill yesterday. The Alling bill repeals the Allen law passed two years ago, which provided for 50-year franchise extensions and re-enacts the old horse and dummy act, with amendment making it applicable to electric or cable roads. Under the Alling bill no franchise or extension for more than 20 years can be granted.

Fraudulent Use of Mails.

Chicago, March 8 .- Edward Dohlheimer was arrested yesterday charged with using the United States mails for fraudulent purpose. His scheme was to advertise offering spools of choice silk thread at a bargain. When he got the money from a customer he is said to have sent only a yard of silk which he called a sample and asked for a continuance of the customer's trade.

Vaccination Causes the Death of a Young Indianapolis Lad.

FORTVILLE SANITARIUM

Company Organizing to Build a Health Resort In Northern Part of Hancock County-Assured of a New Railroad-Split In a Church Is Now

Indianapolis, March 8.-Webb Feller, aged 16 years, died yesterday from blood poisoning resulting from vaccination. This is the first instance so far in which death has resulted from this cause. The boy was employed in a factory when the smallpox scare was so great, and the management requested all employes to be vaccinated. Young Feller complied with the request, although he was at the time suffering with scrofula. The physician who vaccinated him told his parents that there was danger, owing to the boy's physical condition, but they agreed to take the risk, and the work was done, with the above result.

A final hearing will be had on Friday, and, for personal reasons, Judge Higgins prefering not to hear the case, Judge McMaster of Indianapolis has consented to act in the injunction pro-

The same committee has also filed infunction proceedings against Commissioners Dulin and McLean to prevent them from allowing a bridge claim of \$800 to J. D. Adams & Co., it being alleged that this amount is \$400 in excess of the real cost. The committee has also made a demand on the same commissioners for an accounting of alleged illegal and fraudulent bridge allowances,

aggregating \$19,137.49.

NO AGREEMENT. Miners and Operators Fail to Come

Brazil, Ind., March 8.-The block coal miners' and operators' committees met here yesterday in an effort to arrange a scale to govern the mining of coal for next year. President Mitchell of the Miners' association was present

and a lengthy session was held. No agreement was reached, as the operators refused to sign the agreement until the Jackson (O.) operators had made a settlement, unless provisos were inserted in the agreement which would not bind the block operators to pay the scale agreed on at Pittsburg if the Jackson operators reduced their employes' wages. Another meeting will be held

on March 15, when another attempt at settlement will be made.

DONO1 GRT THE WRONG IMPRESSION

Bead This Darefully

Do not get the wrong impression of proprietary medicines. Because you have been cheated by buying them in the past, you must not think that they are all alike, fo they are not. There are many preparations on the market that equal or exceed anything that physicians have prescribed. There are some. however, that are frauds, and the manufacturers should be punished for defrauding innocent purchasers. However, be cause you have been defrauded in the past, is no reason why you should look upon every manufacturer as dishonest. Morrow's Kidne-olds are purely and wholly a scientific preparation and have been severely tested They are not some mixup or decoction by those who know nothing of drugs and their strength nor by some grandma or auntie who took a handful of this and a pinch of that and boiled it up and soaked it in whisky and called it a great cure. Morrow's Kid-ne-oid are carefully made of the purest drugs and ompounds to be had. Then they are placed small wood boxes so there is no danger of reakage in carrying or shipping. They are made into small Yellow Tablets (not pills which make them easy to take, without stopping in the throat. They cure the worst form of kidney disease if persistency in using the nedicine is followed. We guarantee this with a money offer of Fifty Dollars for a case we town, is to fill Rev. Shroyer, splace here followed. We have hundreds upon hundreds cannot cure, where the directions are strictly of statements for publication that are given in this state alone. Those statements should inspire confidence in the most skeptical, for people do not give their names to be used at ome unless they are true. "For the sake of suffering humanity," Alonzo Knowles of Depot and Third streets, Mad'son, Ind., who is fireman in the Towel Manufacturing Co.'s Cooper Shop, "I amonly too glad to give my statement for publication, so that others may be cured of this terrible kidney complaint Do not experiment any longer but use Morrow's Kid-ne-oids as I did.
